Full Stack Developer | Mobile & Backend Specialist

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 5+ years of experience engineering high-performance web applications, cross-platform mobile solutions for iOS and Android, and scalable backend architectures. Proven track record in developing end-to-end digital products and MVPs using Flutter, Node.js, Express, React, and relational/NoSQL databases. Certified Software Engineer by HackerRank with a solid grounding in cybersecurity best practices and clean architectural patterns.

WORK EXPERIENCE

Full Stack Developer (Freelance)	2021 — Present
Independent Software Consultant	<i>Remote / Algeria</i>
- Delivered robust custom web, mobile, and desktop software solutions for diverse clients, handling complete lifecycles from architectural design to deployment. - Engineered performant backend microservices and REST APIs using Node.js and Express, integrating secure authentication mechanisms and database layers with PostgreSQL and MongoDB. - Architected and deployed responsive cross-platform mobile apps for iOS and Android using Flutter, ensuring 60fps UI performance and clean code separation. - Collaborated directly with startup founders and business owners to define requirements, build rapid Minimum Viable Products (MVPs), and optimize conversion flows.	

FEATURED PROJECTS

Full Stack / Mobile Developer , Pocketo — Digital Banking & FinTech Application
- Architected a comprehensive FinTech neobanking app featuring multi-currency wallet management, interactive 3D virtual cards, biometric authentication, and instant QR code payments. Technology Stack: Flutter, Dart, Clean Architecture, Material 3, REST APIs
Full Stack Developer , National Championship Web Platform & Dashboard
- Engineered the official registration portal for the National Calisthenics Championship, featuring athlete onboarding, category filtering, an admin dashboard, and registry export tools. Technology Stack: React.js, Node.js, Express.js, Database Management
Mobile Developer , SkyGlide — Modern Flight Booking Application
- Developed a modern flight discovery and booking interface emphasizing fluid UX, state handling, and Claymorphism design standards. Technology Stack: Flutter, Dart, Custom UI Components

CERTIFICATIONS

Software Engineer Certificate , HackerRank (https://www.hackerrank.com/certificates/fe68db617a85)	August 2026
Node.js (Intermediate) Certificate , HackerRank (https://www.hackerrank.com/certificates/6b27ea72da54)	August 2026
Cyber Security Specialization , Edraak (https://programs.edraak.org/learn/verify-certificate/8910a04bd9da4a53aa3d945a6a54c4f7/?lang=en)	August 2026
Computer Essentials (ICDL-Base) , Edraak (https://programs.edraak.org/learn/verify-certificate/703ff3c21ae54c20abd247a1ce4a093d/?lang=en)	August 2026

TECHNICAL SKILLS

- Programming Languages:** JavaScript (ES6+), TypeScript, Dart, SQL, HTML5, CSS3
- Frontend & Mobile:** Flutter, React.js, State Management (Bloc/Provider/Redux), Cross-Platform Mobile (iOS/Android), Desktop Application Development
- Backend & APIs:** Node.js, Express.js, RESTful APIs, Event-Driven Architecture, Authentication & Security
- Databases & Tools:** PostgreSQL, MongoDB, Git, GitHub, Clean Architecture, CI/CD Workflows
- Methodologies:** Full-Lifecycle Development, MVP Scoping & Deployment, Performance Optimization

LANGUAGES

- Arabic:** Native
- English:** Professional Working (B1)
- French:** Elementary (A1)
